Issue 5 – 27th May 2022

A Note from Mr Stoyles

A shorter newsletter this week as we prepare for our half termly bulletin to be sent on the first day back at school—Tuesday 7th June. The children all thoroughly enjoyed their afternoon celebrations today in aid of the Queen's Platinum jubilee. We started in 'class zones' on the field with picnic food at 1:30pm. Children then had a choice of different sporting activities that included: dancing, cricket (with Cornwall Cricket) or football (with Mr Webb). Some children decided that they would like to celebrate in the shaded areas and chose to either read, or use the opportunity to catch up with other children across the school. Feedback around the event has been really positive from both our staff and children—their behaviour was also impeccable throughout.

A Note from Mr Stoyles

Ladoca Trip to Ennis Barton Farm

“We had a lovely morning at Ennis Barton Farm, finding out about the wildlife that lives on the farm. We saw three different habitats: woodland, streams and field. The children were very well behaved and showed off their knowledge about habitats, which the volunteers were very impressed with. They are all very enthusiastic about what they have seen” - Mrs Tringham

Weekly Attendance for week ending 20th May 2022 - **97.1%**

St Cuby **96.24%** St Keyne **96.14%**

St Ladoca **99.35%**

St Blaise **96.67%**

The Government advises that attendance should not fall below **96%**

A Note from Mr Stoyles

My Coast App—Jo Murray

After two summers of near-misses exploring the Cornish coast, I have taken on the challenge of developing a public facing app called 'My Coast', with the help of the RNLI, MET Office, South West Water and many others. The app will give coastal & beach users LIVE safety and other useful, verified information to ensure they stay safe and get the best out of their day. Please take a look on the link below.

The app will be able to:

- Reduce the number of avoidable deaths and accidents involving rescues on our coastline, by providing live safety information, emergency service push notifications and an emergency 'call for help' button should you get into trouble
- Give information on how busy an area is in real-time, so it's really easy for everyone to avoid crowds and pick somewhere else suitable to go instead
- Capture information relating to visitor flows in popular hotspots and the effect these movements are having on our areas of natural beauty
- Give really useful information about how to travel to where you'd like to go without using a car, eg linking to bus and train timetables, EV charging points, bicycle parking and walking/cycling routes
- Continual maintenance and updating to ensure it remains as the 'go-to' single source of truth

Be the catalyst for improving connectivity along our coastlines and in rural areas, ensuring our emergency functions can operate even when there is little or no phone reception
